Mother Computers welcomes members of the Victoria-Fred Whitehouse Branch of the National Association of Federal Retirees!

Here at Mother Computers, we are proud to offer a 5% to 50% discount to all members of the Victoria-Fred Whitehouse Branch depending on the product. Just show your Federal Retirees membership card to our staff when making or inquiring about a purchase, and we will be happy to discount the item accordingly.

Items such as cables and network systems have a larger mark up and can get up to 50% off.

Laptops and desktop computers have a low mark up and would be up to 5% off.

We will also offer priority service on labour, getting your computer back to you fast! We offer complete clean up services, such as virus removal, hardware diagnosis, operating system issues, and anything else that causes your system to slow down, for only a \$78 labour charge.
